

Shu Pu

pushuabc@gmail.com — Homepage — Scholar — Github — Last Updated: July 3 2025

EDUCATION

Sep 2022- Jun 2026 (Expected) Huazhong University of Science and Technology Computer Science and Technology
Grade: 4.17/5, 86.9/100, Rank: 10/35
Degree: Bachelor of Engineering
Major: Excellent engineer in Computer Science and Technology

Publication

- **CEGIS workshop ICCV'25. Shu Pu**, Boya Zeng, Zhuang Liu. *Memorization in 3D Shape Generation* [PDF].
- **KDD'25 DB Track (Oral) Shu Pu**, Yaochen Wang, Dongping Chen, Yuhang Chen, Guohao Wang, Qi Qin, Zhongyi Zhang, Zhiyuan Zhang, Zetong Zhou, Shuang Gong, Yi Gui, Yao Wan, Philip S. Yu. *Judge Anything: MLLM as a Judge Across Any Modality*. PDF
- **ICLR'25 (Spotlight 5.1%)** Dongping Chen *, Ruoxi Chen *, **Shu Pu** *, . . . , Ranjay Krishna, Yao Wan. *ISG-Bench: Interleaved Scene Graph for Text-to-Image Generation Assessment* [PDF]
- Haojie Zheng *, Tianyang Xu *, Hanchi Sun, **Shu Pu**, Ruoxi Chen, Lichao Sun. *Thinking Before Looking: Improving Multimodal LLM Reasoning via Mitigating Visual Hallucination* [PDF]

Experience

Remote Research Internship in Princeton University, Supervised by Assistant Professor Zhuang Liu

Full-time, Remote Research Intern

March 2025 – Present

- Research on 3D generative models and memorization behavior. We propose an analysis on 3D generative models memorization level first.
- Research on unified models and diffusion-LLM.

Research Internship in HUST, Supervised by Associate Professor Yao Wan

Part-time, Research Intern

June 2024 – March, 2025

- Research on unified generation models and their interleaved generation capabilities. We propose a benchmark **ISG-Bench** focusing on evaluating the model's interleaved image-text generation capability and propose a brand-new evaluation metric for interleaved context using scene graph.
- Research on any-to-any generative models' capability investigation. We propose a benchmark, fine-grained human analysis and an *Omni-Arena* for the development of any-to-any generative models.

Summer Internship in ShangHai, Supervised by Teaching Professor Raja Sooriamurthi

Full-time, Research Intern

August 2024

- Conducted a data analysis project focused on football.

Personal Projects

3D Physical World Perception and Generation Computer Vision, Course Project

- Conducted a self-directed survey on 3D perception and generation. *Survey link* [PDF]
- Explored 3D Gaussian Splatting by studying its codebase and learning CUDA to understand the technique in depth.

Skills

Language: Mandarin (native), English (TOEFL 103)

Research Abilities: Proficient in Python and C++; Knowledge and experience in Multi-modal Perception and Generation, Diffusion models and 3D Vision.

Interesting Field: Besides unified model and diffusion, I'm also a motivated Computer Graphics learner, especially in 3D AIGC and geometry. My long-term goal is to help develop a world-model which can revolutionize the film, game and animation industry. I believe integrating AI into everyday life is a more worthwhile pursuit.

Others

Research is only one part of who I am.

Hobbies: Football, Swimming, R&B.
